

Trip Attestation

After logging in to the Transportation Provider Web Portal, users will select Completed Trips Attestation from the Billing menu to begin the new trip attestation process.

Trip Attestation

The transportation provider will be presented with a trip date selection page to select the date for the list of trip legs to view and attest. A calendar control will be available to assist in selecting the date, if needed. If no trip legs are found that qualify for the trip attestation process for the date selected, a warning message will be displayed to the user, and they may select a different date or navigate to a different section of the web portal.
